### Career & Technical Education Internship Class Description:

MVOLA students have an opportunity to earn class credits for participating in our Career & Technical Education Internship Program. The CTE Internship program provides students a pathway between school and work. Students develop entry level skills in a specific occupation, practice career management, and prepare for employment all while earning class credit. The CTE Internship has several benefits. Students can earn *up to 2* elective credits per year (3 total), internships reflect a wide-range of possibilities for hours/schedules (i.e. – can be done afterschool, during school, weekends, etc) and, most importantly, the internship gives the students an opportunity to “test the waters” of a desired occupation. If you are interested in learning more about the DELTA Center’s CTE Internship Program, please contact Kevin Wright at [kevingw@monte.k12.co.us](mailto:kevingw@monte.k12.co.us).
